

1. Introduction:

The Library is the nucleus of the teaching-learning program. Though the collection is not larger by number, it is rich in quality. The basic functioning of any document is its use and hence a user occupies important place in functioning of the library. The Library offers its services and access to information for our students, the faculty members and the alumni. The Central Library of DYPSOE is located on the first floor of the Technical Campus building. The Library aims to offer services, resources and physical spaces should provide a strong foundation to support the institute in achieving the highest

standards in teaching, learning and research. The Library preserves the knowledge of the past while ensuring we are a library for the 21st century and beyond. Library employees take pride in the services they provide.
